PROFILE

Tech-savvy frontend developer with education in both computer science and modern web development. I have experience building responsive web applications using React, Tailwind, and API integrations, as well as working in agile teams. Passionate about creating user-friendly interfaces and writing clean, reusable code.

EXPERIENCE

Junior Fullstack Developer - IMVI Labs AB, Malmö - Feb. 2026 - May 2026

- Built an internal admin application using Next.js 16, TypeScript, and Fluent UI
- Implemented custom TOTP 2FA system with QR code generation, Firebase Auth, and JWT custom claims
- Developed email processing pipeline with .eml parsing, attachment handling, and content sanitization
- Created role-based authentication system with multi-factor authentication and session management
- Built type-safe API layer with 15+ REST endpoints and TypeScript interfaces

Junior Fullstack Developer - Apiva AB, Malmö - Sep. 2025 - Dec. 2025

- Designed and implemented a complete database model and migrations using Prisma ORM; utilized upsert and transactions to ensure relationships between candidates, CVs, and skills
- Developed a REST API in TypeScript with Express for candidate and CV management, including endpoints for uploading, updating, and deleting candidates
- Documented API routes using Swagger
- Integrated an LLM-powered CV parser (OpenAI chat completions + function calling) to automatically extract structured CV data
- Implemented a reusable React-based Wizard with child components inside a WordPress plugin
- Deployed sites using Docker and nginx

Junior Frontend Developer - Axis Communications AB, Lund - Jun. 2025 - Aug. 2025

- Led the migration of a 100,000+ line codebase from React Router v5 to TanStack Router v1, improving maintainability and navigation performance.
- Developed and shipped new features with React, TypeScript, and Microsoft Fluent UI, enhancing user experience on internal platforms.
- Integrated GraphQL queries and mutations to expand application functionality and streamline data management.
- Improved product reliability by implementing Playwright test automation, diagnosing and resolving bugs, and contributing to thorough code reviews.

Assistant Project Manager - Commerz Consultants AB, Malmö - Nov. 2023 - Jan. 2024

- Coordinated project tasks and ensured milestones were achieved within deadlines.
- Assisted in developing technical documentation and reports for client presentations.
- Collaborated with cross-functional teams to improve efficiency and communication.

Customer Service Representative, Guldcentrum Sverige AB, Malmö —
Dec. 2021 - Dec. 2022

- Delivered customer support and effectively resolved technical and logistical issues.

- Worked in a dynamic environment, strengthening problem-solving and communication skills.

Backoffice Assistant - Guldcentrum Sverige AB, Malmö - Jan. 2018 - Apr. 2019

- Supported the administrative team in streamlining workflows and improving productivity.
- Gained insight into internal business systems and developed technical understanding.

EDUCATION

Higher Vocational Education Diploma in Frontend Development, Grit Academy — Aug. 2024 - Maj 2026

Degree of Bachelor of Science, with a Major in Computer Science - Specialisation in Game Development, Malmö University — Aug. 2020 - Jun. 2024

SKILLS
